PROFESSIONAL SUMMARY

I am Vipin, a B.Tech Computer Science student specializing in Artificial Intelligence, with hands-on experience in developing end-to-end machine learning solutions. I have a strong foundation in front-end web development and full-stack integration, along with practical experience in training deep learning models and deploying production-ready applications. I have worked on the projects such as an AI Invoice Generator, Bird Species Classification system, and a Multiple Disease Prediction application. I am proficient in Python, Java, JavaScript, React, and MongoDB, with strong problem-solving and DSA skills in Java. I am highly motivated to continuously learn, innovate, and apply my AI expertise to build impactful and scalable technology solutions.

PROJECTS

AI Invoice Generator

Oct 2025 – Dec 2025

- Automated invoice creation system reducing manual processing effort by 80%.
- Boosted extraction accuracy by 30% using rule-based + ML hybrid techniques.
- Tech Used: JavaScript, React, Tailwind, Python, MongoDB.

Bird Species Classification

TensorFlow, Streamlit, OpenCV

- Achieved 92% accuracy using CNN/VGG16 architecture on 270 bird species.
- Reduced training time by 18% using optimized preprocessing and augmentations.
- Deployed via Streamlit for real-time image classification.

Multiple Disease Prediction

Python, Streamlit, ML

- Predicted diabetes, heart disease, and liver disorders with 87% accuracy.
- Improved inference speed by 25% through optimized data pipelines.
- Built responsive Streamlit UI with Tailwind CSS.

EDUCATION

Rungta Engineering College, Bhilai

B.Tech in Computer Science & Engineering (Artificial Intelligence & Data Science)

Aug 2022 – May 2026

CGPA: 6.2

CERTIFICATIONS

Advanced Problem Solving and Data Structures & Algorithms (Java)

Advanced training in problem solving techniques and data structures using Java programming.

MERN / MEAN Stack Development Certification

Certification in full-stack web development using MongoDB, Express.js, Angular/React, and Node.js.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, C

Frontend: React.js, Tailwind CSS

Backend: REST APIs, MongoDB

Machine Learning: CNN, VGG16, Deep Learning, Model Optimization

Tools: Git, VS Code, Streamlit, Deployment Tools

Other: Data Preprocessing, Algorithmic Problem Solving, DSA (Java)
